

# Adrienne Rio Wongso Atmojo

STUDENT AT MONASH UNIVERSITY MALAYSIA

## Profile

Currently a student at Monash University Malaysia studying Computer Science. Aspiring on full stack web development and cloud computing. Enjoys tackling a problem and developing it to practical use. Fully compatible working with teams and grinding to meet deadlines.

## Education

### Monash University Malaysia, Malaysia

OCTOBER 2019 – JUNE 2021

Currently in my 3rd year 1st semester, with an overall GPA of 3.3

### React and React Native with Redux, Hacktiv8, Indonesia

OCTOBER 2019 – DECEMBER 2019

Attended a coding bootcamp to learn React and React Native. I learned a lot during this bootcamp and also created a single-page application as a class project to analyse Github repositories using Github API and GraphQL.

## Extra-curricular activities

### Mandarin Tuition Center Program, Fun Mandarin Tuition Center, Jakarta

Created several games with the teaching team at Fun Mandarin using React with p5.js to help teach young kids about Mandarin.

### GarudaHacks Hackathon

Participated in a virtual hackathon where my team and I developed a Zoom scheduling system using React and Firebase to manage online classes for students and teachers.

## Projects

### Church Database Management System

MARCH 2020 – PRESENT

Working with Acts Church in a team to create a database interface and management process for newcomers into the church using Vue and Firebase.

### Repo Analyzer

DECEMBER 2019 – FEBRUARY 2020

A single page application made using React with Redux that analyzes a Github repository using Github API.

### Asteroids

JULY 2019 – AUGUST 2019

Using Typescript and Javascript, I implemented the original Asteroids game using functional programming concepts.

### Hearts

APRIL 2019 – MAY 2019

Developed an intelligent agent to compete against other bots and players in the game of Hearts using Haskell.
